Developed a portfolio website using the basics of CSS and HTML. Currently working on revamping it using React.

Certification/Achievements

FreeCodeCamp.com Responsive Web Design Certification

2019 League of Amazing Programmers Code Jam 3rd Place winner

iARoC 2017 1st place winners

Experience

US Army National Guard, 92G, February 2021 - Present

I enlisted in the Army National Guard as a 92G, which is a Culinary Specialist. I decided to enlist as it was a sacrifice I had to make in order to attend University debt free.

BuildFire, App Development Intern, June - August 2019

I spent my summer working as an App Developer for BuildFire. With the goal of using the fundamentals of design and development to create an intuitive application that would allow someone of the likes of you and I to report any trash sightings to the city which in turn would make the city cleaner. My work involves creating a design concept using Adobe XD and creating an example app to present.

The League of Amazing Programmers, Java Tutor Intern, June - August 2018

I worked alongside industry professionals in order to teach students how to program in Java. The intent of the program is to teach students Java and eventually pass the Oracle Certification Exam.
